Bristol Bay - Pebble Mine

On March 3, Dave Evans and WD staff met with a group representing sportsmen, business owners and AK

political leaders who support EPA action to protect BB's fishery resources. The group was in DC this week meeting with members of the AK delegation (including Senators Murkowski and Begich) and others on Capitol Hill as well as federal agencies such as FWS, USGS, BLM. They were here to highlight the recent public release of a letter signed by over 360 hunting and angling groups advocating for EPA action to protect BB's fishery resources.

R10 is preparing to send a letter this week formally requesting environmental, hydrologic and indigenous use data collected by the Pebble Limited Partnership (PLP) in the Bristol Bay over the past 5-10 years. PLP has committed verbally to sharing its data with R10, the letter is designed to expedite actual sharing of relevant data in user-friendly data formats.

R10 is also preparing letters to tribes and state and federal agencies that provide more detail regarding proposed coordination with them on the BB assessment effort.
